

## METROPOLITAN AND METROPOLITAN XPRESS

The new Metropolitan models are the logical implementation of a low-maintenance everyday touring bike and the classic for commuters and touring cyclists. The comfortable, extra large-volume 26-inch wheels, the sturdy integrated luggage carrier with the modular mounting Snap-IT® rack and the belt drive make it a comfortable and reliable companion in any situation. The tout terrain safety concept *City Safety*, the integrated frame lock fitting and the child-seat compatibility underscore the suitability for everyday use.

## SHOPPER

The universally usable »Shopper« is available for virtually any challenge in everyday life and leisure time. The wide range of loading possibilities allows for shopping in bulk at the market, the Sunday excursion with a picnic basket for the whole family or the trip to daycare. Thanks to the special frame geometry, the seat position is very comfortable and allows for easy mounting and dismounting, even when loaded up.

## AMBER ROAD XPRESS

The Amber Road is the universal bike for friends of pleasure trips and for frequent riders who prefer large-volume 28-inch wheels. With tires of up to 55 mm, fields and gravel roads along the way are no longer scary. The geometry of the Amber Road was specially adapted to the large-volume 28-inch wheels, in order to maintain the sporty qualities while at the same time meeting the high demands of comfort.

## OUTBACK

Multi-day bike tours in self-service mode, with only the most necessary luggage and a bike that is light and agile enough to explore the trails that you would also ride on day trips. That is the purpose of the Outback. The experience is paramount, because the worry-free technology allows you to look for the essential. The Pinion gearbox ensures a balanced center of gravity and offers a wide range of gears for steep climbs or technical terrain. The Gates Carbon Drive belt is virtually maintenance-free and, with its 27.5" large and up to 3" wide tires, the Outback offers top riding performance in every terrain along

with maximum comfort. In order to be able to handle even longer passages without water supply, there are sufficient bosses for bottle holders and attachments on the frame and fork.

## SILENT DRIVE

### METROPOLITAN EXPRESS

With our Silent e-Drive system, the Metropolitan eXpress is the logical implementation of a low-maintenance everyday touring bike and the classic for commuters and touring cyclists. The extra large-volume 26-inch wheels, the belt drive and the integrated luggage carrier make it a comfortable and reliable companion in every situation. The Go SwissDrive supports up to 25 km/h, uphill and downhill, and with 18 to 25 decibels, it is whisper-quiet and allows silent driving that every cyclist wants.

### AMBER ROAD EXPRESS

The Amber Road eXpress is our comfortable touring e-bike for friends of pleasure trips and frequent riders. The 29" wheels guarantee the best possible riding comfort and with a tire width of up to 50 mm, fields and gravel roads are no longer scary. Thanks to the high load capacity of the integrated luggage carrier, it is not necessary to restrict yourself on the tour when choosing your luggage. The Gates belt drive, as well as the closed system of motor and gearbox, promise a long life and minimal maintenance, and most importantly, a lot of riding fun! The broad transmission range of the Pinion gearbox make the Amber Road eXpress a perfect companion on every tour. Your own muscle power is

amplified by the Go SwissDrive motor with a speed of up to 25 km/h. Hydraulic disc brakes ensure short braking distances.

### S-PEDELEC AUTHORIZATION FOR SWITZERLAND

Our models Metropolitan, Via Veneto, Amber Road and Shopper can now be ordered as a fast S-Pedelec in Switzerland. The specification **eXpress Speed** includes the powerful 500-watt motor from Go SwissDrive and is approved up to 45 km / h. The speed models are delivered with the EVO color display as standard.

## SHIFT:R ROAD for Speedhub 500/14

Riding a drop bar with a fully integrated brake-/shift lever and using it with a Rohloff Speedhub hub is what many riders have dreamed of. The revised interior of the Shift:R II is being used for the Shift:R Road and combined with the excellent braking performance of the TRP Hylex disc brake.

- Shifts up to three gears, allows sporty riding
- Brake-/shifting levers with fully hydraulic TRP Hylex disc brakes
- Ergonomic aluminium brake-/shift levers

## PLUG V PLUS

The Plug V is the latest evolution of our fully integrated power supply for your bike. The integrated rechargeable battery makes sure you can also charge your device under difficult charging conditions.

Plug V plus functions:

- Dynamo powered, integrated mini-power-bank ensures energy while stopping or going at a slow pace
- The Rotary-Door twist lock closes the USB-C port completely and protects it from moisture and dirt
- Integrated battery charges from 7 km/h up to 1A charging current
- Intelligent Device Management: recognizes automatically the device and negotiates the correct charging current
- Smart Charge: the Plug V plus adapts to the dynamo hub and optimizes the charging current
- Auto-Light-Switch: allows charging and operating the light at the same time
- Auto-Power-Save: optimizes the buffer functionality
- Completely sealed electronic unit
- LED with charge indicator

## NEWTICKER PRODUCTS

- **Nuvinci gear hubs:** new for 2018 is the Nuvinci 330 hub, replacing the Alfine 8-speed hubs. Thanks to the continuous shifting and a greater range than the Alfine hub, it is ideal for everyday use. The Nuvinci 330 is used in urban and trekking segments.
- **Shutter dynamo hubs:** in 2018 the Shutter dynamo hubs complement the SON premium product. With an excellent efficiency, high-quality workmanship and a beautiful look, they complement our light kits optimally and we can offer a wide range of light kits with a very good price-performance ratio.
- **Black Label Urban Pedal:** the Urban Pedal complements our range between city and touring and is ideal for the urban user who also likes to wear shoes with leather soles. The non-slip coating "Griptape" is ideal in combination with harder soles. Thanks to the high-quality, aluminum-milled pedal body, the pedal axes made of CroMo steel and the sealed bearings, they are up to everyday use. The inconspicuous, integrated reflectors ensure good visibility.
- **Black Label anti-scratch seat posts:** scratched seat posts are now a thing of the past! The unique "anti-scratch" coating on our seat posts is durable and beautiful. If you remove the seat post more frequently - whether for maintenance or for transport - you know how to appreciate this feature.
